Lorena

I am still waiting for a return reply/response to the email below.

Please let me know when I can expect a response to my question regarding a noise policy to keep this event legal in terms of noise produced by your live entertainment, and the event layout map.

At the meeting you attended with me and Johnathan Williams July 11, 2017, I was told that the BID would be investigation the noise ordinances that need to be observed regarding live entertainment that the BID provides during permitted events and first and third Thursdays. Has this investigation taken place yet? The Dia event is coming up and It would be to everyone's advantage if the BID had a noise policy in place prior to this event and a plan to abide by the current LA City sound ordinances.

Also, please send me the layout for street closures and the location of the sound stage that is currently planned for this event.
